LONG:

LocoMotion – The Science & Circus Arts Show

National Juggling Champion and kinetic comedian Peter Davison presents juggling, unicycling, balancing, acrobatics, and more, while teaching the science behind the artistry. Much more than a “science demonstration,” Peter mixes awesome circus skills with dance and physical theater in a unique performance for all ages. Human and machine locomotion, Newton’s Laws of Motion, center of gravity, gyroscopic action, centrifugal and centripetal forces, friction, and other physical phenomena are revealed. Be amazed and educated with LocoMotion!
